

PLOT 47 HARBOUR ISLAND - JOLLY HARBOUR US\$425,000

Located in Jolly Harbour, Antigua • Waterfront Property

Situated on Harbour Island in the beautiful marina of Jolly Harbour on the west coast of Antigua, building plot 47 has to offer a generous 64 foot seawall at one end of the property, making dock construction for a larger vessel including a catamaran very practical. The property is level, 135 feet in depth and building guidelines will allow a two story residential property. This site is conveniently located near the harbour entrance and has a wonderful western view enabling the home to enjoy Caribbean sunsets.

Local Information

- 10 minute walk to the beach
- 15 minute walk to grocery store, local restaurants and bars
